

Monica Zidar, Registered Music Therapist, is thrilled to be bringing music therapy to *Therapy Matters*, in West Burleigh. Monica has worked, extensively, in early intervention for the past 12 years at Musgrave Hill ECDP & intermittently at Burleigh Heads ECDP.

Participation in music therapy is available in either:

- 30 min individual sessions (\$50/session)
- a group session for 0-5 year old children (one child - \$165 for one, ten week term – family rates available on request )

*Our music therapy groups are fun & stimulating groups for parents, babies and young children aged 0-5 years. All music is LIVE and groups are run by a university qualified, registered music therapist. Groups feature developmentally focused musical play, instrument play, dancing, musical games and more. Have lots of fun together, with your child, while enhancing their communication, social, cognitive and motor development and building their self-esteem. KEY WORD SIGNING and picture symbols are incorporated to further enhance the experience for children with special needs. Groups are child-centred, interactive, inclusive and promise to be lots of FUN! Enrolment is by term (coinciding with Qld public school term dates) and everything is provided.*

There are **very limited vacancies** for both individual and group participation.

Sessions will be conducted on **Monday afternoons**.  
Individual sessions will be run between 1pm & 2pm.  
One group will be run from 2pm-2:45pm (max. of 10 vacancies)
